

PROPERTY SURVEY FOR
ALARIK MYRIN
 SECTIONS 4 AND 8, TOWNSHIP 3 SOUTH, RANGE 2 WEST
 UINTAH SPECIAL BASE AND MERIDIAN

LINE	BEARING	DISTANCE
L1	N 00°10'50" W	79.34'
L2	N 00°10'50" W	42.94'
L3	N 00°10'50" W	172.88'
L4	N 00°10'50" W	94.33'
L5	N 00°10'50" W	81.03'

NARRATIVE

This survey was performed at the request of Alarik Myrin for the purpose of identifying on the ground the aliquot part boundary lines in parts of Sections 4 and 8 as indicated on this plat. The corners in Section 4 were determined from data of a previous survey. The bearings from the previous survey were related to fit the current survey and the corners were reset as shown. Section 8 was originally surveyed by the General Land Office using the "3-mile" method during which the sixteenth corners were set. A search was made for the Public Land Survey System corners. The results are noted on the plat. This plat represents the dependent resurvey of parts of Section 8, and is designed to restore the corners in their true original locations according to the best available evidence. The found and restored corners were used to control the survey.

SURVEYOR'S CERTIFICATE

This is to certify that this plat was prepared from the field notes of an actual survey made by me, or under my personal supervision, of the parcels of land shown hereon, and that the monuments indicated were found or set during said survey, and that this plat accurately represents said survey to the best of my knowledge.
