

PROPERTY SURVEY
FOR
MARK BARTON

SECTION 15, TOWNSHIP 2 SOUTH, RANGE 1 WEST
UINTAH SPECIAL BASE & MERIDIAN

SCALE: 1=300'

NARRATIVE

This survey was performed at the request of Richard Barton Enterprises for the purpose of marking on the ground the parcels of land shown on this plat. The parcels are located in Duchesne and Uintah Counties. Section 15 was originally surveyed using the "3-mile" method during which the quarter-quarter corners were set. A search was made for these corners and the monuments found are noted on the plat. These aliquot part corners were then used to control the survey. The boundary lines defining the adjoining parcels around the Northeast Corner of the surveyed parcel were run parallel with the aliquot part lines in order to maintain the record distances. A pk nail found near (North 0.51' and East 0.35' from computed corner) the Southeast Corner of the surveyed parcel set by C. Peatross was used to determine the bearing of the south line of the surveyed parcel in the NE1/4 of the NE1/4 of Section 15. Other found and set monumentation is noted on the plat.

THIS SURVEY WAS PERFORMED USING GLOBAL POSITIONING SYSTEM (G.P.S.) EQUIPMENT AND PROCEDURES. THE BASIS OF BEARINGS IS WGS-84 DATUM.

SURVEYOR'S CERTIFICATE

This is to certify that I have surveyed the parcels of land shown on this plat, and that the monuments indicated were found or set during said survey, and that this plat accurately represents said survey to the best of my knowledge.
