**NARRATIVE**

This survey was requested by Mr. Wayne Robb to determine the boundary lines and area of that part of the E1/2 of the NW1/4 of the NE1/4 of the shown Section which lies North of the Duchesne River. Monuments were found at all the exterior corners of Section 29 except at the East Quarter Corner. During a previous survey a monument spike alongside an old corner post had been found at that corner. Using ties from that previous survey a 5/8"x24" rebar with an aluminum cap stamped 148951 was set. The old corner post stump was found during the search for the corner. A pipe fence corner has been constructed alongside this corner position. The Section was then subdivided as prescribed in the Manual of Survey Instructions, 1973. The boundary lines of the parcel were marked as shown on the plat.
