

Dear Parents

Duchesne County Sheriff's Office asks for your assistance in learning about the children in our community that have special needs. We feel that it is important for our law enforcement to be aware of children with limited language and communication skills in the unfortunate event they should wonder off or go missing and need officer assistance. Completing this form including a picture will allow our officer to identify them quickly and interact more effectively and hopefully limit the stresses that may be caused to the child in these types of situations. Duchesne County Sheriff's Office is looking for a better understanding in coping and minimizing the stresses certain situations can cause children with special needs. Things that are helpful to our deputies to know are:

- What will help them calm down?
- What emotionally regulates your child to feel safe?
- What we are officers can do to help your child feel safe?

Please fill out this form and include a picture to help us identify, interact with your child to the best of our ability and to bring them home safely. Once form is completed please bring into our office at 21554 W 9000 S in Duchesne.

Sincerely  
David L. Boren  
Sheriff
