## **Duchesne County**

## **Remote Access to COINS**

**Please Note**: Duchesne County Information Systems Department cannot provide technical support for installation or use of the remote access software. Technical support is only available for connection problems and not for customer's hardware or software. If you need assistance, we suggest you contact a local vendor.

Download the VMWare view client installer by using your browser to navigate to the Web Portal (<u>https://view.duchesne.utah.gov/</u>) and selecting Install VMWare Horizon View Client from the available options. You will be directed to a site from which you can download the most recent version of the VMWare client appropriate for your computer Operating System. Note: We are using a Windows 10 computer in this example.

# Download VMware Horizon Clients

VMware Horizon Clients for Windows, Mac, iOS, Linux, and Android allow you to connect to your VMware Horizon virtual desktop from your device of choice giving you on-the-go access from any location.

While the program is loading there will be a pop up asking if you would like to share your local files with the remote computer. If you intend to save any documents to your computer you need to select yes to the file share.

After a few moments, your desktop should become available. Please be patient as this can take a few moments over an Internet Connection.

Further Information:

Local Drive Sharing in VMWare Horizon Client

Please Note: Duchesne County Information Systems Department cannot provide technical support for installation or use of the remote access software. Technical support is only available for connection problems and not for customer's hardware or software. If you need assistance, we suggest you contact a local vendor.
